

Product Specs

Designed by a lifetime landscaping business owner, Square Barrel is a next generation, professionally engineered, and patent-pending design improvement to large debris barrels that greatly increases their (1) efficiency, (2) lifespan, (3) adaptability for multi-purpose use, (4) ease of use, (5) profitability, and (6) volume.

Strength

Square Barrel's patent-pending design allows for cuts and folds in the plastic that make it both strong and durable.

Square Top-to-Round Base

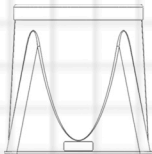

Square Barrel's patent-pending square top-to-round base design improves strength, efficiency, volume, durability, and ease of use, and redefines the industry standard.

Efficiency

Two Square Barrels, side-by-side, create an even seam to minimize load loss.

Safety

Flipped over, Square Barrel becomes a safety cone.

Handles

Large nylon handles make for easier and more efficient handling for one or two users.

Optional Add-Ons

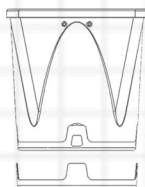

Coming soon will be Square Barrel add-ons like a tight fitting lid and a snap-on base with wheels to improve utility.

Volume

With a 72 gallon capacity, Square Barrel has 20% more capacity than competitors.

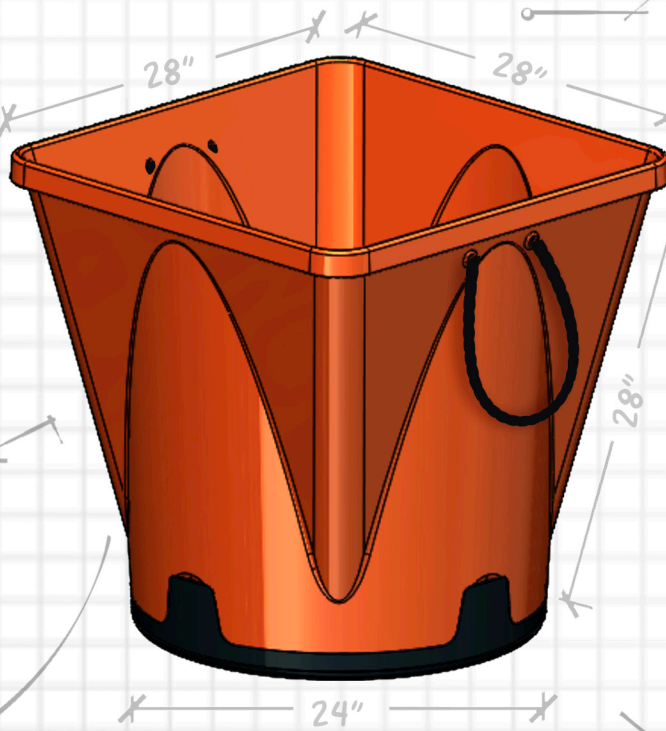

Snap-On Base

Square Barrel's patent-pending snap-on base protector greatly increases the lifespan of the barrel.

Round Base

Square Barrel's round base allows it to be easily rolled.
